

Amr Al-Awolaqi

IT Infrastructure, Cloud & Network Security Engineer

hi@amralawolaqi.com · +967 780 001 332 · linkedin.com/in/amralawolaqi

Professional profile

I specialize in building and operating complete IT infrastructure environments across networking, virtualization, cloud platforms, cybersecurity, storage and enterprise systems. My focus is reliability, security, scalability, performance and maintainability.

Technical expertise

Enterprise networking

Cisco Catalyst · Cisco Business · MikroTik · Ubiquiti

Network security

Sophos XGS · FortiGate · IPS · IPSec VPN · SSL VPN

Virtualization & compute

VMware ESXi · vCenter · vMotion · Resource Pools

Cloud infrastructure

AWS EC2 · VPC · S3 · CloudWatch · Cloudflare

Storage & backup

Synology · QNAP · RAID · 10GbE · Hyper Backup

Enterprise computing

Active Directory · Windows Server · GPO · RDP · SSO

Unified communications

Grandstream · IP-PBX · SIP · IVR · Wave · GDMS

Linux & private cloud

Ubuntu · Debian · Nextcloud · DNS · SSL/TLS

Selected experience

ESNAD — Infrastructure & systems administration

2019–2024

Cloud, network security, Google Workspace, remote workspaces and unified communications at ESNAD.

Infrastructure project areas

Enterprise virtualization platform · Secure enterprise network · Cloud web infrastructure · Centralized storage infrastructure · Remote workspace infrastructure · Unified communications platform
